EDUCATION

Obafemi Awolowo University
Jan 2022 - present

- B.sc in Computer science with Economics

EXPERIENCE

Swiftend (LAGOS)

front end engineer intern
Aug 2021 - present

- Assist in front-end development tasks, including website maintenance, bug fixing, and feature implementation.

- Collaborate with designers and back-end developers to ensure seamless integration of UI components.

- Conduct browser testing and troubleshooting to ensure a smooth user experience across different devices

D'Accubin (LAGOS)

Front end develop intern
Aug 2021 - present

- Develop a responsive portfolio website using HTML, CSS, and JavaScript, showcasing personal projects and skills.

- Collaborate with a team to create a web application using React, implementing dynamic data fetching and interactive components.

- Enhance the user interface of an existing website, optimizing the codebase for improved performance and responsiveness.

- Contribute to the development of mobile-first web application, ensuring cross-browser compatibility and adherence to accessibility guidelines.

Leadly (LAGOS)

Full-stack Development
Oct 2022 - present

- Collaborated with cross-functional teams to develop responsive web applications, ensuring seamless integration between design and development.

- Implemented UI/UX designs using HTML, CSS, and JavaScript to create visually appealing and user-friendly interfaces.

- Developed dynamic web pages and interactive features using modern front-end frameworks such as React, delivering optimized performance and enhancing user engagement.

- Conducted thorough testing and debugging to ensure compatibility across various browsers and devices, resolving issues and improving overall user experience.

- Utilized version control tools like Git to manage codebase, track changes, and collaborate with team members effectively.

- Actively participated in Agile development methodologies, contributing to sprint planning, daily stand-ups, and retrospectives for continuous improvement and timely project delivery.

Dettyfinance (LAGOS)

Frontend Developer
Oct 2022 - present

• Closely collaborated with cross-functional teams to develop and launch responsive web apps, achieving seamless interaction between design and development phases.

• Used HTML, CSS, and JavaScript to implement UI/UX designs rigorously, resulting in visually beautiful and intuitive interfaces that improve user experience.

• Created dynamic web pages and interactive features with cutting-edge front-end frameworks like React, increasing performance and driving increased user engagement.

• Conducted extensive testing and debugging to ensure flawless compatibility across a wide range of browsers and devices, proactively resolving issues and continually improving the overall user experience.

• Used Git, a powerful version control system, to manage the codebase efficiently, track changes, and facilitate streamlined cooperation among team members.

• Actively contributed to Agile development approaches, including sprint planning on a daily basis.

OTHER EXPERIENCES

- Photography intern (July2019 - Jan 2020)
- Manual printing (Jan 2020 – October 2020)
- Dstv installation (November 2020 – January 2021)
- Automated Interswitch creation (November 2021 – January 2022)
- Solar installation (June 2021 - present)

SKILLS

- HTML5
- bootstrap
- Node.js
- Java script

- css
- Managed Hosting
- Web Hosting
- WordPress
